Ceilings & Interior Systems Construction Association (CISCA): CISCA is the only association uniquely dedicated to serving the acoustic specialty ceilings and interior system industry. CISCA provides market-driven solutions including dynamic networking, quality education, accessible resources and expert technical guidelines to enhance the success and profitability of our members.

Core Purpose: CISCA exists to provide a network of opportunities with all industry leaders through education and a forum to allow the interior construction industry to interact, evolve and prosper.

Vision: CISCA is the recognized authority and resource for the acoustical ceiling and wall systems industry

Mission: CISCA will:

- Recruit and retain select prominent and emerging leaders
- Provide relevant, effective education
- Develop and promote technical and installation guidelines
- Provide dynamic and accessible forums to advance relationships within the industry
- Promote the acoustical ceilings and wall systems industry
