StarSilent - Seamless Acoustical Plaster and Vogl - Seamless Perforated Gypsum board

Rulon International

Table 35

Rulon International manufactures and delivers the finest suspended wood ceiling, acoustical wood wall systems, engineered polymer ceiling and canopy systems.

Synergistic Solutions LLC

Table 15

Plastic tabs used to install acoustical tiles.

TURF

Table 33

Acoustical felt ceiling solutions made in the USA. We specialize in felt ceiling solutions ranging from baffles to tiles, both standard and custom product. We make installation easy by utilizing both new and existing unistrut and tee grid as connection points. We provide you all of this within a 4-week lead time.

USG

Tables 7, 8, 9

USG Ceilings Plus designs and manufactures outstanding acoustical ceilings, wall panels, and facades. Driven by the architect's vision, solutions can be produced in an infinity of shapes, finishes, and sizes that allow lighting and HVAC integration - so your space can deliver the best.

USG expands their portfolio of contemporary ceiling solutions to include True™ Wood Grilles. Available in both standard and semi-custom options, these grilles embed human comfort considerations, are offered in a variety of orientations and configurations and are available in a variety of wood finishes. Designed for easy installation they are both aesthetically appealing and provide easy access to mechanicals while shielding the plenum from below.

USG Ceilings Plus offers Barz™ for all spaces that require acoustic control and sustainability that performs. With stunning aesthetics and freedom to design Barz™ delivers superior sound absorption without sacrificing the environment (85% recycled aluminum, 100% recycled jeans acoustic infill, and faux-wood veneers available).

USG Ensemble™ Acoustical Drywall Ceiling is a new ceiling solution that combines the best in seamless design and superior acoustics. Breakthrough innovations across core USG product technologies come together in one ceiling system to maximize performance. USG Ensemble™ can help you create elegant ceilings designs without compromising acoustics. Learn more at usg.com/ensemble.
