

Contractors Only Meetings

Presenting a great new opportunity for CISCA Manufacturer Members!

Get in front of your contractor customers and prospects virtually in a *private, contractors-only* forum.

CISCA is offering manufacturer members the opportunity to be part of a series of product presentations that will be scheduled throughout the winter months and promoted to our Contractor members only. You will be given an hour of presentation time via the Zoom platform to present products and take questions in an open forum. Invite your contractor customers to join the presentation as well. This opportunity is free to members!

If you are interested in reserving a time slot, please email us at cisca@cisca.org.
